Diensten

Presentatie over AI

Onze on-site presentatie biedt u en uw medewerkers een unieke kans om meer te leren over de nieuwste ontwikkelingen op het gebied van AI en hoe deze relevant zijn voor uw bedrijf.

[Meer info](#)

Dynamisch rapport over AI en uw bedrijfstak

Ons dynamisch rapport en de presentatie bieden u een overzicht van de nieuwste ontwikkelingen in uw bedrijfstak en de tools die u kunt gebruiken om uw bedrijf naar een hoger niveau te tillen. Hierdoor kunt u beter inspelen op veranderingen in de markt en uw concurrentiepositie versterken.

[Meer info](#)

Een tailor-made advies

Wij voeren een diepgaande analyse uit binnen uw bedrijf om te ontdekken welke AI-tools u het beste kunt gebruiken en waar u de grootste voordelen kunt behalen. U krijgt een op maat gemaakt adviesrapport, waarin we u precies vertellen welke tools u moet gebruiken en welke gevolgen dit zal hebben voor uw bedrijf.

information?

Asset Information and Engineering Content Management Solutions

In today's competitive, highly regulated and cost-intensive markets, owner/operators and engineering contractors face the challenge of finding new ways to increase asset and project performance and profitability.

Our asset information and engineering content management solutions make vital and accurate engineering content available to the wider enterprise, integrating it with mainstream business processes and management decision-making.

AI in Nederland 2023

Gebruikt AI (vrij) intensief

Toename efficiency

- Als men AI (vrij) intensief gebruikt schat 73% in dat men minstens een factor 2 keer zo efficiënt werkt

Effect op het werk

- 61% van de (vrij) intensieve gebruikers denkt dat het de mogelijkheden voor de eigen producten en diensten van het bedrijf vergroot
- 49% denkt dat saai werk hierdoor verdwijnt

Gevoelens bij AI

- Intensieve gebruikers vooral nieuwsgierig en optimistisch
- Niet-gebruikers vooral bezorgd

Verdwijnen van banen

- 24% van de (vrij) intensieve gebruikers denkt dat de eigen baan zal verdwijnen.

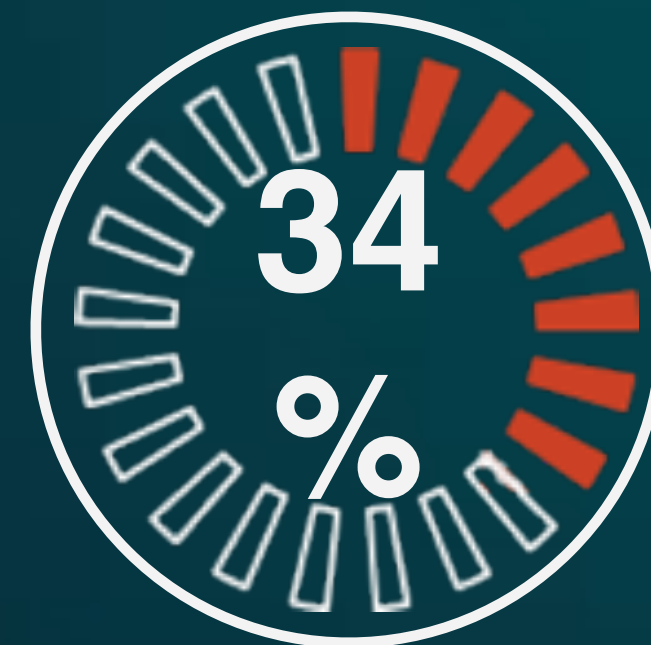

Op den duur verdwijnen van eigen baan door (vrij) intensieve gebruikers

leap in solving protein structures**

“This will change medicine. It will change research. It will change bioengineering. It will change everything’ ...”

GPT is old stuff and there is more

- Facebook META AI model
- OpenAI's GPT-3: pricing varies depending on usage, with costs ranging from \$0.0006 to \$0.006 per token.
- Google's BERT: free to use, but requires significant computing resources to train and run.
- Facebook's RoBERTa: free to use, but again, requires significant computing resources.
- Microsoft's Turing-NLG: pricing varies depending on usage, with costs ranging from \$1.35 to \$4.50 per 1,000 transactions.
- Hugging Face's Transformers: free to use, with paid plans available for enterprise users.
- AllenAI's GPT-2: free to use, but has limitations on the amount of data that can be processed.
- IBM Watson's Language Translator: pricing varies depending on usage, with costs ranging from \$0.02 to \$0.10 per character.
- Amazon's Comprehend: pricing varies depending on usage, with costs ranging from \$0.0001 to \$0.0015 per API call.
- Salesforce's Einstein Language: pricing varies depending on usage, with costs ranging from \$0.0025 to \$0.005 per API call.
- NVIDIA's Megatron: pricing varies depending on usage, with costs ranging from \$0.004 to \$0.02 per token.

Maak een presentatie indeling over Artificial intelligence en hoe het 4 industrieën beïnvloed. industriële elektronica, cybersecurity, energie transitie, en ICT. Noem 4 voorbeelden per gebied en eindig met een evaluatie van de voor en nadelen en hoe een bedrijf zich moet voorbereiden!

- Potentiele bedreiging voor de menselijke autonomie en besluitvorming.

Vorbereiding van Bedrijven:

- Identificeren van gebieden waar AI waarde kan toevoegen.
- Investering in AI-talent en opleiding van medewerkers.
- Zorgvuldige dataverzameling en -beheer voor nauwkeurige AI-resultaten.
- Ethische en juridische overwegingen integreren in AI-gebruik.
- Continue monitoring en aanpassing van AI-systemen voor optimale prestaties.

Conclusie:

- Kunstmatige Intelligentie heeft de potentie om verschillende industrieën te transformeren.
- Balans vinden tussen voordelen en uitdagingen is cruciaal voor een succesvolle implementatie.
- Bedrijven moeten strategisch plannen en flexibel blijven om te profiteren van de voordelen van AI in een steeds veranderend technologisch landschap.

Schrijf een voorbeeld programma in python om energie gebruik van een 100 tal bedrijfspanden via een API te ontvangen en maak een dashboard van het totale energie gebruik

ChatGPT

Hoewel ik geen toegang heb tot actuele gegevens na mijn kennisafsnede van september 2021, kan ik je wel de namen geven van enkele prominente woningbouwcorporaties in Nederland op dat moment. Houd er rekening mee dat de ranglijst enigszins kan variëren op basis van verschillende factoren, zoals het aantal woningen in eigendom, de omvang van het vermogen en andere variabelen. Hier zijn echter enkele gerenommeerde woningbouwcorporaties in Nederland tot september 2021:

1. Stichting Eigen Haard
2. Vestia
3. Ymere
4. Woningstichting Rochdale
5. De Alliantie
6. Woonstad Rotterdam
7. Woningcorporatie Portaal
8. Wonen Limburg
9. Woonzorg Nederland
10. Mitros

Hoi Vincent,

A.s. donderdag sta je om 10.30 uur ingepland voor jouw presentatie op onze Commerciëdag. Als ik me niet vergis wilde je ruim op tijd aanwezig zijn om je laptop, geluid etc. te testen. Dat zou heel fijn zijn! Wie verwachten onze gasten rond 09.30 uur.

Wil je een kledingkamer gebruiken voorafgaand aan jouw presentatie of is dat niet nodig?

Alvast hartelijk dank voor je reactie en we kijken uit naar je komst!

Met vriendelijke groet,

CSU

ChatGPT Cheat Sheet

By @hasantoor

Define ChatGPT Role

Act as a Linux Terminal
Act as "position" Interviewer
Act as a JavaScript Console
Act as an Excel Sheet
Act as an English Teacher
Act as a Plagiarism Checker
Act as an Advertiser
Act as a Relationship Coach
Act as a Recruiter

Learn from ChatGPT

Explain clearly
Explain uniquely
Explain detailed
Explain like I'm 5
Explain with examples
Explain to 5th grades
Explain like Elon Musk
Explain detailed with examples
Explain to high school students

Chained Prompting

- Write an article about ChatGPT.
- First give me the outline, which consists of a headline, a teaser, and several subheadings.
[Output]
- Now write 5 different subheadings.
[Output]
- Add 5 keywords for each subheading.
[Output]

Prompts for Marketers

- Can you provide me with some ideas
- for blog posts about [topic].
- Write a product description for my [product or service or company]
- Suggest inexpensive ways I can promote my [company] without using social media.
- How can I obtain high-quality backlinks to raise the SEO of [website name]

Prompts for Designers

- Generate examples of UI design requirements for a [mobile app].
- How can I design a [law firm website] in a way that conveys [trust and authority].
- What are some micro-interactions to consider when designing fintech app.
- Create a text-based excel sheet to input your copy suggestions. Assume you have 3 members in your UX writing team

Prompts for Developers

- Develop an architecture and code for a <description> website with JavaScript.
- Help me find mistakes in the following code <paste code below>.
- I want to implement a sticky header on my website. Can you provide an example using CSS and JavaScript?
- Please continue writing this code for JavaScript <post code below>

tell me more about Vincent Everts

Vincent Everts is a Dutch trendwatcher, vlogger, and entrepreneur. He is known for his work on the internet and technology, and has been involved in a number of innovative projects, including the kilometerheffingsproject for the Dutch government.

Everts was born in 1959 and studied business administration at the University of Amsterdam. After graduating, he worked as an entrepreneur in the United States, where he founded the document management company Cyco Software. In 1995, he returned to the Netherlands to become director of Mediaplaza, a demonstration center for internet technology.

In 2001, Everts became chairman of the Netwerk Gebruikersgroep Nederland (NGN), a professional association for network administrators. He also worked on a number of projects with Roel Pieper, including the kilometerheffingsproject, which was a controversial proposal to charge drivers based on the distance they traveled.

Everts has worked for a number of companies and institutions, including KPN, the NOS, and the Dutch Ministry of Economic Affairs. He is also the CEO and investor of the company Innovader, which develops software for the internet of things.

In addition to his work in business, Everts is also a trendwatcher and vlogger. He is the author of the book "De toekomst van internet" (The Future of the Internet) and publishes a weekly video blog on his website.

Everts is a passionate advocate for innovation and technology. He believes that these forces are changing the world and that we need to be prepared for the future.

AI meeting summary:

- Vincent Everts en Kyras Kuitert bespreken hoe je kunt inloggen op een website. Vincent geeft het wachtwoord door en helpt Kyras om in te loggen. Ze hebben het ook over verschillende presentaties over AI, waaronder de reacties van mensen en kunstenaars die gebruik maken van leefde AI. Vincent heeft gesprekken gehad met ondernemers en een koperaar uit de universiteit, genaamd Kitty.
- Vincent Everts deelt verschillende onderwerpen met Kyras Kuitert, waaronder een AI-cheat sheet en video's over financiën en politiek. Ze bespreken ook het delen van schermen en het opzetten van een WhatsApp-groep voor AI-discussies. Vincent heeft geen specifieke vragen in getypten voor deze onderwerpen en vraagt Kyras om te helpen met het organiseren ervan. Hij geeft haar ook een tekst die Aventus spreekt.
- Vincent Everts deelt zijn ervaringen over zijn optreden in verschillende media en heeft een teaser voor een presentatie. Hij laat zien hoe hij lijsten maakt van klanten en belangstellenden, waarbij alleen de introductie verschilt. Kyras Kuitert vraagt naar Fireflies AI en Vincent belooft haar later terug te bellen met meer informatie en stuurt haar een linkje toe.

Outline:

- Hieronder vindt u een overzicht van de transcriptie met de bijbehorende tijdstempels:
- Hoofdstuk 1: Inleiding
 - 00:04-01:37 Vincent Everts praat over de soundbite en stroopwafels.
 - 01:42-09:43 Vincent Everts en Kyras Kuitert bespreken presentaties en reacties daaraan.
 - 10:54-14:37 Vincent Everts vraagt naar een nieuwsbrief.

AUTOMATED AIRCRAFT DRONE INSPECTIONS

- ✓ Every aircraft type
- ✓ Indoor & outdoor
- ✓ Zero preparation

[See it fly!](#)

Today, aircraft inspections are a highly time-and cost intense process. An inspection of a widebody can last up to 12 hours and involves two to three aircraft engineers using heavy equipment. Airlines and MROs are therefore under constant pressure. Mainblades is here to change that. Our drone-powered inspection tool supports aircraft engineers to perform their work more efficiently and to gather consistent, compliant inspection data.

Question 2

How would you use AI to improve and accelerate the production and results of marketing campaigns?

YOU: YOU

Next Question

Feedback

You did a good job in acknowledging the role of AI in improving and accelerating marketing campaigns. However, in terms of specific strategies, your answer lacked depth and specificity. It would have been more effective if you had provided examples or discussed specific AI tools and techniques that could be employed to achieve these goals. Remember to be more specific and provide concrete examples in order to showcase your knowledge and understanding of AI in marketing.

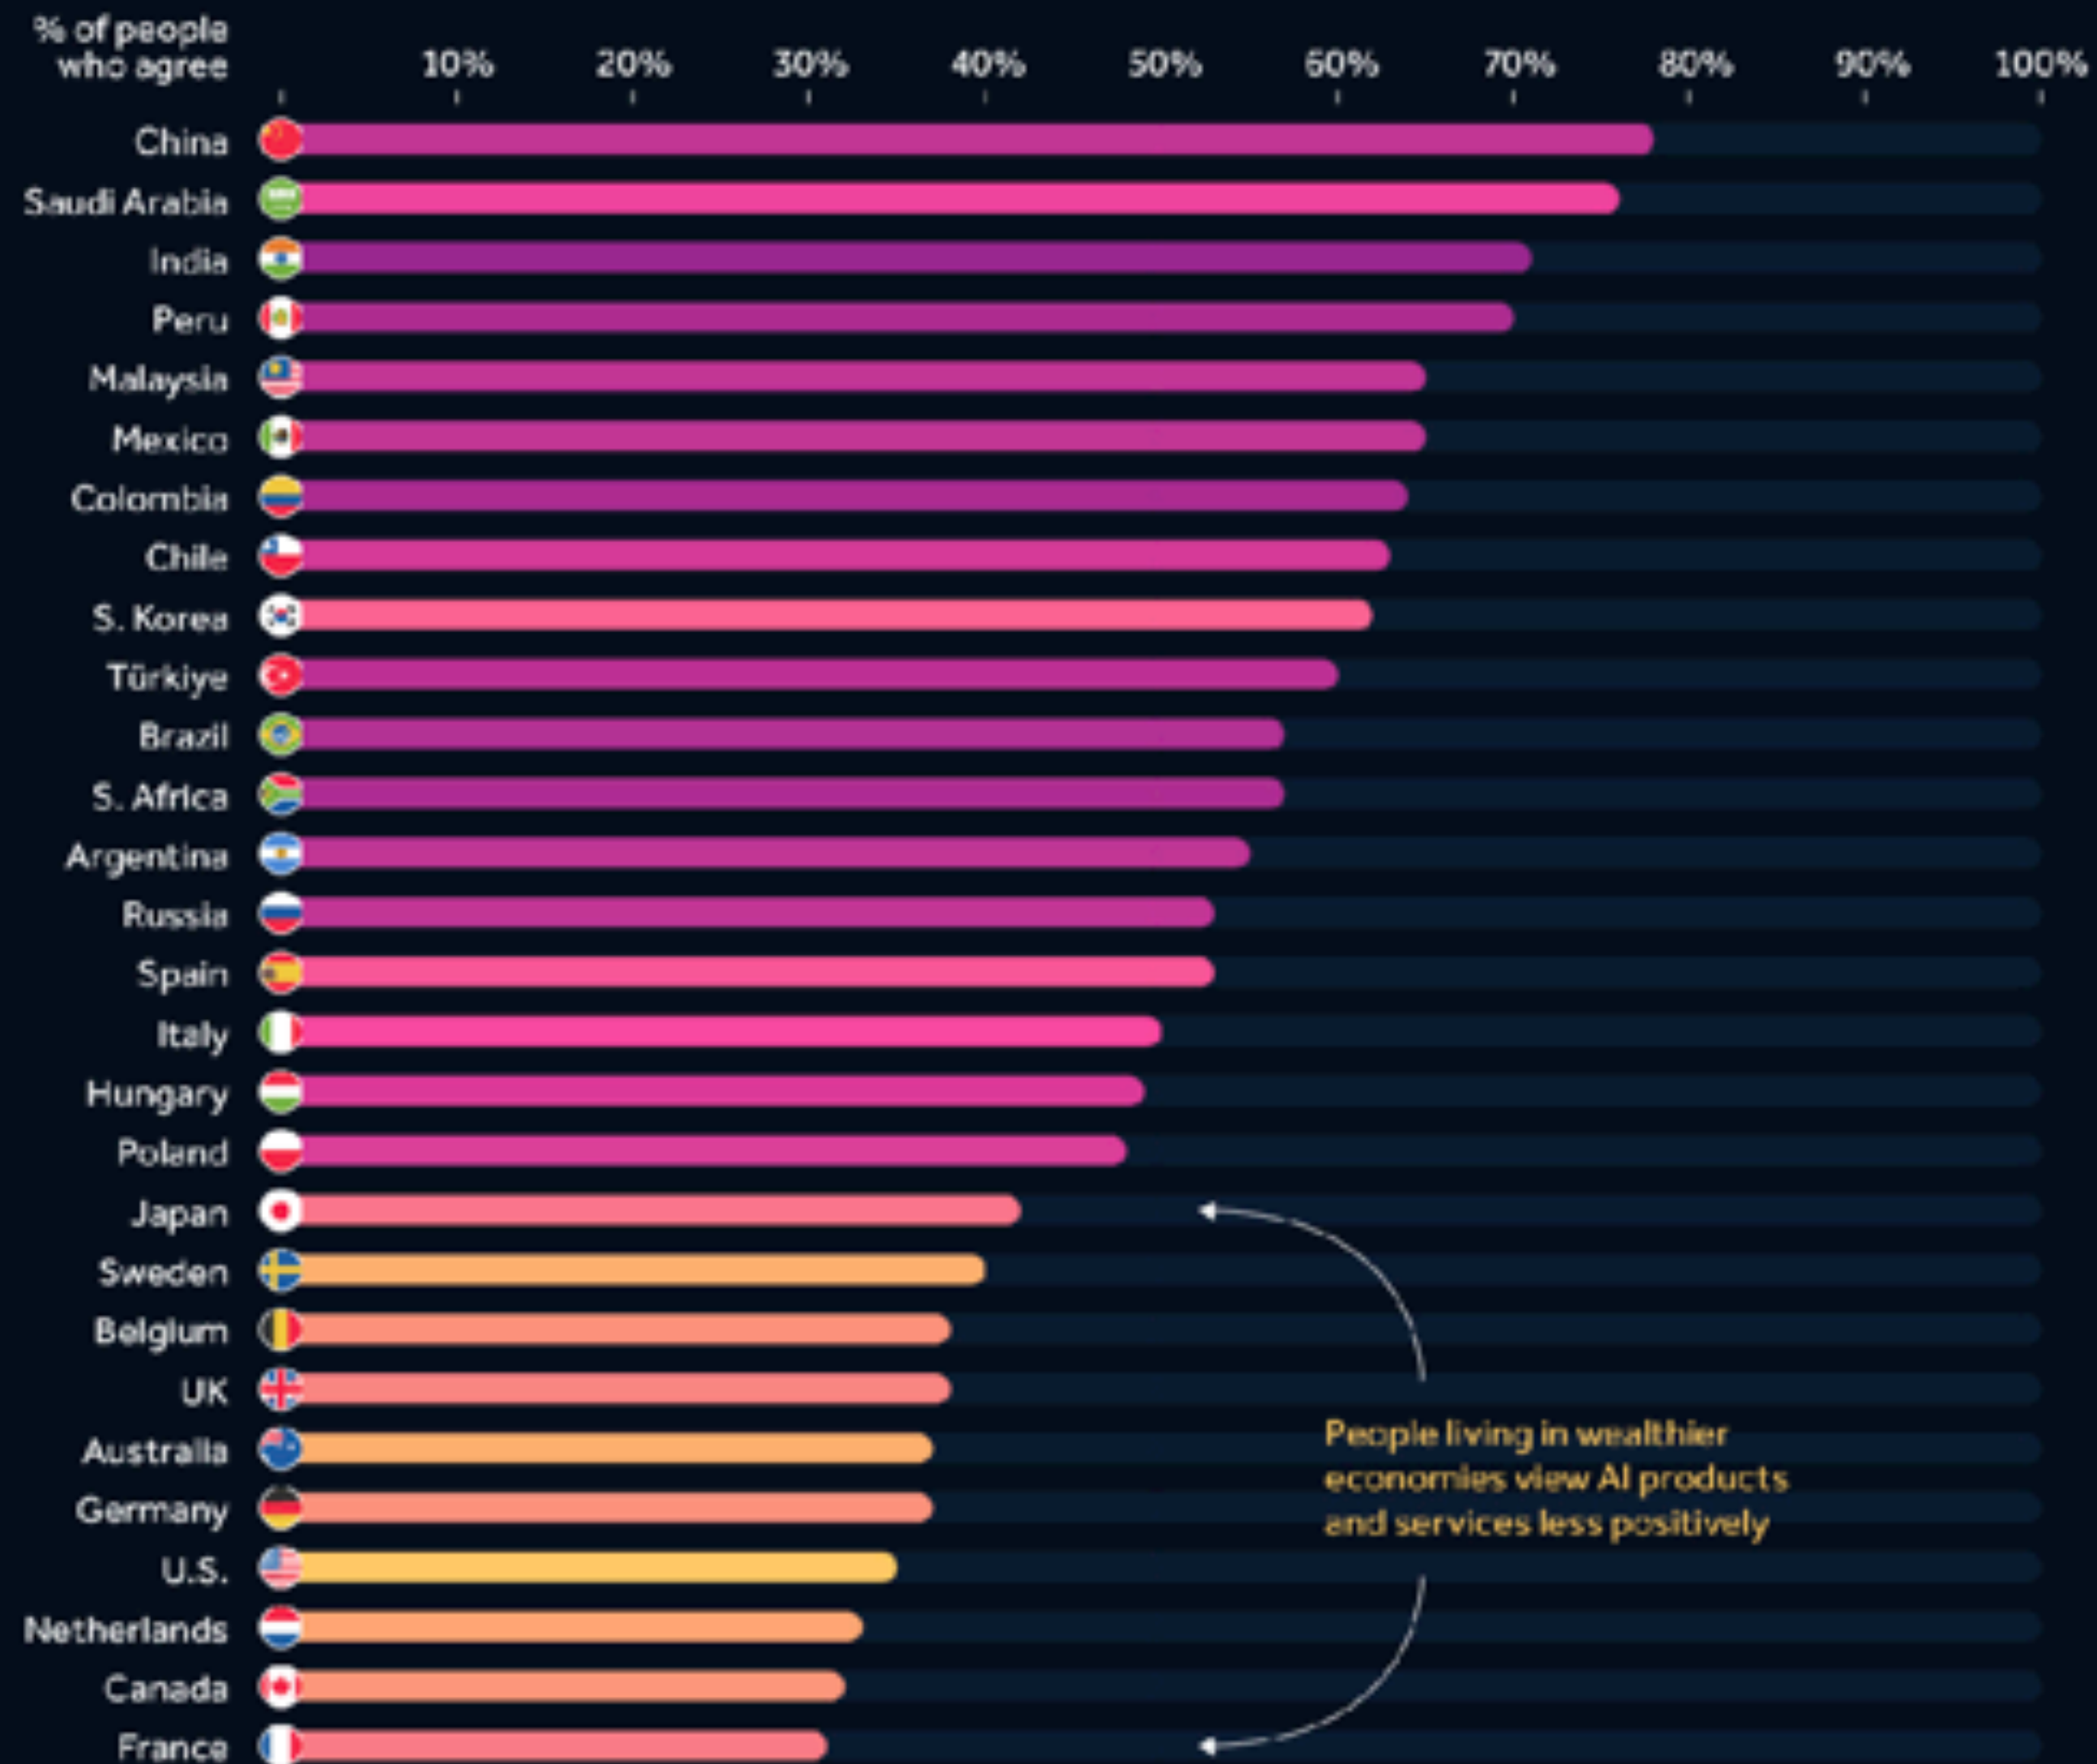

Sample Response

AI can be a game-changer when it comes to improving and accelerating marketing campaigns. One way I would leverage AI is by using advanced algorithms to analyze large datasets and gain insights into customer behavior and preferences. With this information, I can develop highly targeted and personalized email campaigns that resonate with customers on a deeper level. Additionally, AI can help automate the process of creating attractive landing pages and email templates, saving valuable time and resources. Another strategy I would implement is using AI-powered chatbots to enhance customer engagement and improve response times. These chatbots can provide quick and accurate responses to customer inquiries, ensuring a seamless and efficient experience. Additionally, AI techniques such as natural language processing can be utilized to analyze customer feedback and sentiment, enabling me to make data-driven decisions and optimize marketing strategies in real-time. Furthermore, I would explore the use of AI for A/B testing and campaign optimization. AI algorithms can analyze the results of different campaign variants, identify patterns, and provide recommendations for optimizing future campaigns. This iterative approach ensures continuous improvement and increased effectiveness of marketing efforts. By embracing AI tools and techniques, I aim to not only streamline the production of marketing campaigns but also deliver exceptional results. Ultimately, my goal is to leverage AI's capabilities to create engaging and personalized experiences for customers, leading to increased conversions and loyalty.

PUBLIC SENTIMENT TOWARDS ARTIFICIAL INTELLIGENCE

A recent survey by Ipsos shows the % of respondents who agree to the question:

Q: Do products and services using AI have more benefits than drawbacks?

Doel en Ervaringen in AI-groep Uitwisselen

Kun je dit horen en vertalen naar tekst? Ik wil het hebben over mijn doel met de AI-groep: het uitwisselen van tools, inclusief korte beschrijvingen, kosten en vooral ervaringen. Er zijn veel AI-tools; ik heb er zelf al 100 bekeken en gebruik er ongeveer 5. De eerste ervaringen zijn erg belangrijk.

Ik ben benieuwd wat jullie kunnen bijdragen aan deze discussie. Als voorbeeld gebruik ik nu AudioPen om te zien hoe goed het is in het omzetten van spraak naar tekst. Het is heel handig!

Doel en Ervaringen in AI-groep Uitwisselen

Kun je dit horen en vertalen naar tekst? Ik wil het hebben over mijn doel met de AI-groep: het uitwisselen van tools, inclusief korte beschrijvingen, kosten en vooral ervaringen. Er zijn veel AI-tools; ik heb er zelf al 100 bekeken en gebruik er ongeveer 5. De eerste ervaringen zijn erg belangrijk.

Ik ben benieuwd wat jullie kunnen bijdragen aan deze discussie. Als voorbeeld gebruik ik nu AudioPen om te zien hoe goed het is in het omzetten van spraak naar tekst. Het is heel handig!

• Kunstmatige intelligentie

In deze galerie is alles AI, zelfs de kunstenaars

Hoe kun je kunst maken met kunstmatige intelligentie? En hoe kun je kunstmatige intelligentie kunst maken? Dit zijn de vragen die de kunstmatige intelligentie kunstenaars stellen. En de kunstmatige intelligentie kunstenaars stellen de vragen die de kunstmatige intelligentie kunstenaars stellen.

Is door AI gemaakte kunst wel kunst?

De plannen zijn er om de kunstmarkt te veranderen. Het is een wereldwijde trend die zich voelbaar maakt in Nederland. De kunstmarkt is een wereld van mogelijkheden, maar ook van risico's. De kunstmarkt is een wereld van mogelijkheden, maar ook van risico's. De kunstmarkt is een wereld van mogelijkheden, maar ook van risico's.

Bedrijven verbieden intern gebruik ChatGPT

Onder meer Apple, Samsung en diverse banken vormen weggeklamd bedrijfsgeheimen

Apple verbiedt personeel nog langer gebruik te maken van tekstrobot ChatGPT omdat er mogelijk bedrijfsgeheimen door weglekken. Samsung nam eerder een vergelijkbaar besluit na twee incidenten.

Het verbod om ChatGPT te gebruiken, werd door Apple eind vorige week medegedeeld in een interne memo, die werd doorgezonden aan The Wall Street Journal. De afgelopen weken heeft een reeks andere bedrijven waaronder Samsung, maar ook de banken JPMorgan Chase, Bank of America, Citigroup en Deutsche Bank vergelijkbare besluiten genomen, merkt The Register op. De reden is dat werknemers gevoelige informatie via een tekstrobot, die in de gebruiksvoorwaarden meldt dat alle ingevoerde data gebruikt kunnen worden voor trainingsdoeleinden door ChatGPT-eigenaar OpenAI.

AI - Gevaren!

1. **Verspreiding van desinformatie:** ChatGPT kan onjuiste of misleidende informatie genereren als het niet correct wordt gecontroleerd. Dit kan bijvoorbeeld leiden tot de verspreiding van desinformatie, complottheorieën of bevooroordeelde standpunten.
2. **Versterking van bestaande vooroordelen:** AI-modellen zoals ChatGPT leren van bestaande gegevens, inclusief vooroordelen die mogelijk in die gegevens aanwezig zijn. Als gevolg daarvan kunnen ze bevooroordeelde antwoorden of opmerkingen produceren, wat kan bijdragen aan discriminatie en ongelijkheid.
3. **Manipulatie en misbruik:** ChatGPT kan worden gebruikt voor manipulatieve doeleinden, zoals het genereren van overtuigende nepinhoud of het imiteren van andere mensen. Dit kan worden ingezet voor phishing, oplichting, het verspreiden van nepnieuws of zelfs het creëren van gerichte aanvallen.
4. **Privacy- en gegevensbeveiliging:** Bij het gebruik van ChatGPT moet rekening worden gehouden met de privacy van gebruikersgegevens. Het model vertrouwt op de input die het ontvangt, inclusief persoonlijke informatie, en er moet zorgvuldig worden omgegaan met de bescherming en beveiliging van dergelijke gegevens.
5. **Verlies van menselijk contact:** Hoewel ChatGPT nuttig kan zijn als een hulpmiddel voor interactie, kan overmatig vertrouwen op AI-chatbots leiden tot een verlies van menselijk contact en empathie. Het is belangrijk om een gezonde balans te vinden tussen automatisering en menselijke betrokkenheid.

TIME

Hi ChatGPT

Hello! How can I assist you today?

What do you think of a TIME cover story with the title, "The AI Arms Race Is Changing Everything?"

As an AI language model, I don't have personal opinions or beliefs, but I can provide some context and information on the subject.

"The AI Arms Race Is Changing Everything" could be an attention-grabbing and thought-provoking title for a cover story on AI. A cover story in a widely-read publication like TIME could help raise public awareness about the potential risks and benefits of this trend, and stimulate discussions on how to ensure that AI is developed and deployed in a responsible and ethical manner.

It's important to note that the title of the story could also be interpreted as sensationalist or alarmist, and may not accurately reflect the complexities

Europees Parlement beteugelt AI

■ Het Europees Parlement is het eens geworden over hoe de regels voor kunstmatige intelligentie eruit moeten zien. Het gaat er dan bijvoorbeeld om dat duidelijk is wanneer iets gemaakt is met AI, zoals tekstgenerator ChatGPT.

De overeenstemming wordt gezien als een belangrijke stap in de procedure die moet leiden tot wetgeving die in de hele Europese Unie van kracht wordt.

De komende tijd gaan het parlement en de lidstaten in onderhandeling over die wet, die in 2021 werd voorgesteld door de Europese Commissie. Die hoopt dat de onderhandelingen eind dit jaar zijn afgerond.

How AI can help find new employees

Artificial intelligence can help hiring managers and recruiters discover talent, reducing the time it takes to get them onboard a company. But there are risks associated with a process often automated by a chatbot.

Q&A: HPE global talent exec credits AI, chatbots for bolstering hiring

HPE has been using AI-based talent acquisition technology that has literally turned a lackluster career site and hiring process on its head and reached more than 950,000 candidates.

Q&A: HPE global talent exec credits AI, chatbots for bolstering hiring

ng
a

HPE has been using AI-based talent acquisition technology that has literally turned a lackluster career site and hiring process on its head and reached more than 950,000 candidates.

Prior to rolling the AI-based chatbot technology, half of those who'd land on HPE's career page looking for jobs would leave without ever applying. After the rollout in the first three months of 2023, HPE more than doubled the industry standard for visitors to its [career site](#), reaching 950,000. The company is now able to convert 26% of "casual job seekers" into actual hires.

Q&A: HPE global talent exec credits AI, chatbots for bolstering hiring

ng

HPE is part of [a wave of organizations](#) taking advantage of AI tools for talent acquisition to supply HR shops with a full pipeline of candidates and to personalize the onboarding experience for new hires. Among the leading suppliers of SaaS-based intelligent talent acquisition platforms are [Eightfold](#), [Beamery](#), and [Seekout](#) — all of which perform skills inference and candidate-job matching. Other notable vendors include [Clovers](#) (with its recent acquisition of [Talvista](#)), [HireVue](#), [Pymetrics](#) (recently acquired by [Harver](#)), [iCIMS](#) and [Phenom](#), according to Forrester Research.
